I've sent the book to the printer (Richard Shaw).
On the two questions - I changed the bowling order to match CricketArchive for the Devon match and I agree Tony Webb's numbers on the Bedford grounds - the book numbers were taken before I'd changed the 1909 match ground.

Julian - I've told Richard Shaw that he should contact you for the copy for the back cover and also asked him to contact you about timescales.

I'm working on the ACS Yearbook next, but once that's done I'll start on the 1910 !!!
best wishes

Hi Pete,

Colin called me today to give me a number of changes to the latest proof - see attached file. Let me know if anything is not clear.

If you can make these changes, then I think we are done and 1909 can be sent to the printers. What is the likely timescale to get the printed copies? It would be good if we could get them before the AGM on $21^{\text {st }}$ March.

With regards to the cover for the book, this usually comes from Richard Shaw via Andrew Hignell so I will request a proof. The back page will need changing to reflect the new ACS Sales address.

Thanks
Julian

in addition, on page 139, the number of matches for which 'sufficient' data also exists should now be increased to 28 and the number for which 'inadequate' data exists should be dropped to 33 to compensate.

I still think it is ED. I told Colin I found a team selection before the match showing him as Capt S Young but as the paper got a number of initials wrong I have not placed much credence in him. Capt ED Young was still a Captain in Devon early 1909 but moved that year. I have not found a JY Young in Army lists a few years before.

## Subject: Captain Young

Tony,
Colin Munford has reminded me that we have a query over the initials for Captain Young who played for Devon in Match 32 in 1909. In the original draft scorecard there were no initials, then a subsequent version showed them as 'JY' but I don't know where these came from. In the Devon Cricketers book he is shown as 'ED' with a rank of Brigadier General.

I tend to favour the latter as it still shows a military title. Unless we have good evidence for ' JY ', I suggest we go with 'ED'. What do you think?

## 'Evening Both,

The proof duly arrived (thanks, Pete) and, so far, I've checked the 'bits' that I 'do'. I found the 'Partnerships' and 'Missing Data' to be correct with a couple of changes which were clearly right and proper.

Under 'Leading Performances', we still lack Christian names for: SR Nicholson (Wilts), WE King (Beds - surely Tony W?), H Mitchell (Wilts), E Gee (Carmarthenshire), J Armstrong (Notts II - Peter W-T?), WN BickfordSmith (Cornwall) and Sir CEMY Nepean (isn't he 'Cyril'?).

I assume that the tribute to Tony will go in. There are two errors regarding the Norfolk team. Firstly, SD Page appeared in only 57 Championship matches in his career rather than $100+$ and need to be deleted from the appearance milestone list. Second, the partial batting order in Norfolk's second innings in Match 35 is: (8) Thurgar, (9) Page, (10) Pilch, (11) Smith. The others as already given (or unknown). White's hat-trick consisted of Cozens-Hardy, Thurgar and Page (the latter two 'bagged 'em').

I'll have a run-through before 'Stars On Sunday'.

Good evening, Julian.
Here is the last batch. I split the job into 5 parts as I have had a rather busy week with household duties etc., on my return from the beautiful island and devoted afternoons to the book. If you think I have been too fussy, please tell me. I will not be offended. I hope that i have not missed too much through doing it comparatively quickly.
Page 165 line 2 Bedfordshire lost 2, not 3, on first innings.
Page 166 line 2 Berkshire lost one on first innings, not none.
Page 170 In the heading to the Cambridgeshire averages the year should read 1909, not 1908.
Page 174 Cornwall. In the list of professionals, Vibart, not Vibert
Notes line 3 Hawken, not Hawkin (at least I think that is what my note says
but I cannot read my
own lousy writing)
Page 176 Dorset In the "final season" list at line 15 Barnes, not Banres, and
Bosworth-Smith, not Bosworth-
Smioth
Page 177 Notes line 3 Would not at 28.80 be preferable to and 28.80(Durham)
Page 179 Glamorgan. In the notes we seem to deal in Christian names where they are available. According
to Andrew Hignell's history, Maxwell was James and Sweet-Escott was

## Edward.

Page 180 Notes line 3 "in 1908 whe he scored 656 to 50.46 " should read "in 1908 when he scored 656 at
50.46".

Page 183 In respect of Match 94 I said that Geen took over as w/k. From what is shown on page 183 it looks
as if the player's name was Green not Geen. An amendment to the
Monmouthshire batting card in
Match 94 is, therefore, needed as are two amendments to the Cornwall card for catches by Green.

In the notes above the averages, for the sake of consistency, I think we should say that 1909 was
"the last or only season that these 5......."
Green has become Geen in the averages. I have no way of checking this chap's name as he is not
mentioned in 1910 Wisden. Cricketarchive has WP Geen so this seems correct. However I noted a couple of entries in CA for WP Green which probably need merging into Geen's records.
Page 186 Again for consistency I think we should say 3 players who made their (not his) debut in the
heading to the averages.
Page 187 In the notes above the averages insert "XI" after 2nd in line 2.
Page 188 Notes line 2 Edmund' not Edmind.
Page 191 Surrey secretary was Findlay not Findley.
Page 192 In line 1 of the notes "defeating Glamorgan"
Page 194 In the 7th wicket partnership for Bedfordshire in "milestones" we have TA Brown. I have a feeling that

Brown was a pro - he certainly was with Northamptonshire - and, if so, his initials need moving.

The same applies to George Pollitt for the 8th and 9th partnerships. Again, in the bowling,

Brown's initials need moving in 3 places. In the number of appearances below both Brown and

Pollitt need adjustment. I think that David is correct and that these two were both professionals.
Page 195 Cambridgeshire bowling - I think D,M. Hayward was a pro(3 places).
Agreed, and also below
Page 196 Norfolk batting - Holland F.C. 5th wicket Relf A.E., 5th wicket (against)
Hayward 6th Holland and
10th Davis were all pros.
Norfolk bowling Shore C. (4 places) and Tomlin E.
Page 197 These are all pros.
batting Ducat, Thompson \& Baker
partnerships Hayes, Ducat, Holland, Davis (twice), Rothery (twice),
Hutchinson (not sure) - he was a pro,
Thompson, Makepeace and Ellis.
bowling Thompson (2), Smith (2), Nice
appearances Baker.
I appreciate that all these minor things will cause a lot of work and leave you to decide what to do about them. All my previous MC books are in the loft so I have not checked who was a pro and who was not. I cannot remember if Albert Relf began as an amateur in MC.

It is a big job typesetting all these figures and I certainly don't envy Peter.
If you have any queries on what I have done, don't hesitate to get in touch and' if it is urgent, you can get me on 01159273937.

Good luck.
David.

thanks for all of these - I've marked up everything on my master copy - do you want to see a new version before I get any marks from Colin?
match 49 - no indication on whether the missing runs we all attributed to Gee - I think that it's likely though.

Barmby - this was cause by us saying that his last match was in 1900 in the 1900 book
grounds - all pages are generated from the CricketArchive database where, for instance, we don't believe in Wearmouth which did not exist at this time and has been used incorrectly by Tony Webb as a shorthand. When I get Colin's marks, I'll edit to what is required.

Hi Pete,

Colin and I have started to check the latest information that you sent through. He will post his comments back when he is finished but in the meantime here are a few other amendments:

Orton - 1 incorrectly advised you to show Orton as an amateur. Colin reminded me of Douglas's comments:

Orton is a young man who certainly started out with initials but had them taken away in 1909. He was groundsman class, his family having a long association with the Amersham club. I know he had initials in front of his name 1908, but I honestly believe that they should go behind in 1909, as shown in the local papers and Cricket!

So could you please change him to show as Orton RW in 1909.

BN Boswell-Smith - his only appearance was in match 99. In the averages for Dorset he shows as BNB Smith. CricketArchive seems to have both versions. We feel that he should be BN BoswellSmith in the 1909 book (his only Minor Counties appearance).

Match 49 - you have added in the missing bowling analyses for the match but the Carmarthenshire figures, although showing a total of 313 , are 95 runs short. Should these runs be attributed to Gee? If there is no evidence of this then the total should be adjusted to 218 and a comment added about the discrepancy. The current comment needs removing. Also in the Devon bowling figures there is a 24 run discrepancy. When compared to CricketArchive this is explained by Scott conceding 24 runs not 21 and the addition of Wilson 9-1-21-0.

Match 53 - this relates to an earlier query. The FOW in Cheshire's innings should show the fall of the $6^{\text {th }}$ wicket as blank (unknown) and the $7^{\text {th }}$ wicket as 264 (confirmed in 3 sources).

Berkshire County Page - FJ Barmby's batting should show 1 match, 2 innings, 1 not out, 3 runs, highest 3 and average 3.00. This will amend the totals to 170 innings, 18 not outs, and 2341 runs to match the aggregate totals on page 22 of the book.

Staffordshire County Page - the totals at the bottom of the averages still show 1908 totals. Also there should be 1 substitute catch added to the line above.

Season's Results at a Glance - your version does not match the one I sent you on $1^{\text {st }}$ January, please replace with mine.

100 matches summaries - Colin has noticed that a number of ground descriptions are different to those we have previously settled on. I'm not sure how this happened but we should aim to be consistent. I think that he will note the grounds affected.

Please let me know if you have any queries on these proposed changes.

Noticed a few things in the cards you uploaded. A few typos that the upload sorted on initials which I won't comment on. Where you had a change to a county we haven't done a booklet for I have assumed the new version is correct, with one exception below.

87508
Your card has ES Whittaker. From Tony's Wiltshire list (the current booklet being worked on) S is correct so have changed back. The 1908 Addendum \& Corrigendum confirms that it should be $S$ (Sam) not ES.

87510
Your card had HM Blackwell (Herbert the 1904 player) where we have $H$ (Henry) playing in 1909 - upload has assumed Henry is correct as we have it and I'm pretty sure Michael Weeks sorted the Blackwells out for me. Agreed H not HM in 1909.

87542
Your card has F Christian we have WF from Devon book so combined back. Agreed should be WF not F.
Two matches you have SG Bennett of Wiltshire we had as SG Bennet - also played in 1910 and 11, have combined back into one player. For now changed the name to Bennett but then I checked in the Suffolk
yearbook and the latest version I can see of their career records which they print each year does say Bennet so maybe I should have left it as we had it.
I have checked with Colin and it should be Bennett - it's an error in the current yearbook.
Philip

RE: 1909 - match 29 Glam v Carm

Colin and I think that we should just remove the reference to Mills after the run out.

In the Carmartehn first innings we give John run out by Mills - is this right?
Was Mills a sub?

Re: 1909- match 53-cheshire $v$ northumberland
actually, this is wrong - the FoW should be 6-234 not 6-264 and so CoP was correct at 242-6 at least in my opinion

CoP for Cheshire of 242-6 is non consistent with FoW
I've assumed 264-6 for the time being - but need confirmation
